Conscience: Theological and Psychological Perspectives Carl Ellis Nelson, 1973-01-01      **Conscience**, 1973      **Paul Tillich and Psychology** Terry D. Cooper, 2006 Paul Tillich more than any other theologian of the twentieth century maintained an energetic dialogue with psychology and especially psychotherapy This book explores what Tillich's theology has to offer psychologists and others working in the field of mental health spiritual development and pastoral counseling Tillich's interaction with Carl Rogers Erich Fromm Rollo May and other famous psychologists became an important part of his thinking Tillich frequently pushed psychologists to see the underlying philosophical assumptions of their work This investigation of the underpinnings of psychotherapy then encouraged psychotherapists to become more aware of the ultimate questions about meaning purpose and ethics that informed their work Perhaps the greatest contribution this book offers is a careful narrative and analysis of the meetings of the New York Psychology Group which involved such figures as Tillich Fromm May Rogers Seward Hiltner Ruth Benedict and David Roberts to name just a few This important group which met from 1941 to 1945 dealt with issues that are very much with us today such as whether faith can be psychologically explained the meaning of transcendence the relationship between psychotherapy and ethics the appropriateness of self love and whether human love is parallel with Divine love      **Conscience and Other Virtues** Douglas C. Langston, 2009-03-02 Conscience once a core concept for ethics has mostly disappeared from modern moral theory In this book Douglas Langston traces its intellectual history to account for its neglect while arguing for its still vital importance if correctly understood In medieval times Langston shows in Part I the notions of conscientia and synderesis from which our contemporary concept of conscience derives were closely connected to Greek ideas about the virtues and practical reason although in Christianized form As modified by Luther Butler and Kant however conscience later came to be regarded as a faculty like will and intellect and when faculty psychology fell into disrepute so did the role of conscience in moral philosophy A view of mature conscience that sees it as relational with cognitive emotional and conative dimensions can survive the criticisms of conscience as faculty In Part II through discussions of Freud Ryle and other modern thinkers Langston proceeds to reconstruct conscience as a viable philosophical concept Finally in Part III this better grounded concept is connected with the modern revival of virtue ethics and Langston shows how crucial conscience is to a theory of virtue because it is fundamental to the training of any morally good person      **As I Have Loved You** James P. Hanigan, 1986 A college text with discussion questions and readings that analyzes all the foundational problems of Christian ethics as aspects of the human effort to love others      **Military Chaplains' Review**, 1979      *Themes in Fundamental Moral Theology* Charles E. Curran, 1977      **Review of Religious Research**, 1973      *Directions in Fundamental Moral Theology* Charles E. Curran, 1985      A Theology of Compromise Richard Grecco, 1991 The impact of Charles E Curran's thinking on contemporary ethical issues has been extensive commanding popular attention and scholarly analysis from an international readership Yet remarkably little has been written

of the ethical method which Curran employs to arrive at his conclusions This dissertation is an exposition and assessment of his four step method in moral theology To test whether Curran s own thinking actually follows these stages Grecco applies the four step procedure to Curran s Theology of Compromise There result some fascinating problems suggestions and questions for those engaged in the methodology of theological ethics *Shame, Images of God and the Cycle of Violence* Jeanette Anderson Good,1999-10-20 Theoretically rich and empirically sound this provocative study demonstrates that shame a history of childhood corporal punishment and certain religious beliefs are contributing factors to the cycle of violence that can occur over generations in families Good begins her study with a thorough survey of the psychological and pastoral literature that deals with issues surrounding shame corporal punishment and beliefs about God She then describes the results of her research that involved having individuals complete questionnaires on childhood punishment religious practices and feelings about suicide and depression These results were then compared with those from tests designed to measure shame guilt and violence between adult partners Good s research suggests that higher levels of violence and shame correspond with punitive images of God and that childhood corporal punishment may result in a higher incidence of adult depression This fascinating work provides insight into psychological issues that affect many adults today and will be of interest to anyone who is concerned with healing the wounds of those who suffered through childhood violence *Theology & Therapy* Samuel Southard,1989 *National Union Catalog* ,1978 **Psyche and Spirit** John J. Heaney,1984
