Conscription and Conflict in the Confederacy Albert Burton Moore, 1924 **The Russian Military Resurgence** René De La Pedraja, 2018-11-21 The transition from the Soviet to the post 1991 Russian military is a fascinating story of decline and reinvention The Soviet army suffered a slow demise dissolving in 2000 and only gradually reforming based on radically different principles The First Chechnya War 1994 1996 was the lowest point for the Soviet military but the Second Chechnya War 1999 2004 saw the initial stirrings of the new Russian army The Five Day War with Georgia in August 2008 was its first major success and marked Russia's return to world power status Lively accounts and maps describe the actions of these wars along with the Crimea operation of 2014 the separatist struggles in eastern Ukraine and the ongoing Russian intervention in Syria *Conscription in Britain, 1939-1964* Roger Broad, 2006 Compulsory military service in Britain can be traced back to Anglo Saxon times but it was only in the twentieth century that it became universal Conscription occurred during both world wars with a total of eight million men in total being conscripted into the army navy and air forces and after the end of the Second World War compulsory service continued for another eighteen years to meet overseas commitments and under the threat of the Cold War Conscription in Britain 1939 1963 outlines the historical record of conscription from the fyrd of the Dark Ages through to Nelson's day and up to and including the First World War The book goes on to concentrate on conscription during the Second World War and National Service which continued in the decades afterwards The strategic and political considerations that governed British military recruitment in the period 1939 1963 are described and analyzed Individual experiences in the services are examined putting human flesh on the strategic and political skeleton The book looks at aspects of conscription including the demands made on the services how officers and men were selected and trained and how discipline was imposed The years following the Second World War are also investigated considering the effect of twenty four years continuous conscription on the services themselves on women's rights on attitudes towards authority and patriotism on race issues and on the breakout of individualism in the 1960s **The Field Artillery Journal**, 1926
