Witchcraft, Demonology, and Confession in Early Modern France Virginia Krause, 2015-01-19 Situated at the crossroads of history and literary studies this book examines confession s place at the heart of French demonology Drawing on evidence from published treatises the writings of skeptics such as Montaigne and the documents from a witchcraft trial Virginia Krause shows how demonologists erected their science of demons on the confessed experiences of would be witches
Resisting Nazism Luke Berryman, 2026-01-22 Resisting Nazism paints a vivid picture of resistance to far right extremism across the generations
Criticism and Confession Nicholas Hardy, 2017 The period between the late Renaissance and the early Enlightenment has long been regarded as the zenith of the republic of letters a pan European community of like minded scholars and intellectuals who fostered critical approaches to the study of the Bible and other ancient texts while renouncing the brutal religio political disputes that were tearing their continent apart at the same time Criticism and Confession offers an unprecedentedly comprehensive challenge to this account Throughout this period all forms of biblical scholarship were intended to contribute to theological debates rather than defusing or transcending them and meaningful collaboration between scholars of different confessions was an exception rather than the norm Neutrality was a fiction that obscured the ways in which scholarship served the interests of ecclesiastical and political institutions Scholarly practices varied from one confessional context to another and the progress of criticism was never straightforward The study demonstrates this by placing scholarly works in dialogue with works of dogmatic theology and comparing examples from multiple confessional and national contexts It offers major revisionist treatments of canonical figures in the history of scholarship such as Joseph Scaliger Isaac Casaubon John Selden Hugo Grotius and Louis Cappel based on unstudied archival as well as printed sources and it places those figures alongside their more marginal overlooked counterparts It also contextualizes scholarly correspondence and other forms of intellectual exchange by considering them alongside the records of political and ecclesiastical bodies Throughout the study combines the methods of the history of scholarship with techniques drawn from other fields including literary political and religious history As well as presenting a new history of seventeenth century biblical criticism it also critiques modern scholarly assumptions about the relationships between erudition humanistic culture political activism and religious identity
The Evolution of the Autobiography from 1770-1850 Heidi I. Stull, 1985 Autobiographical writings remained throughout long centuries relatively unaffected by literary modes and changes From 1770 1850 new developments in literature especially the emergence of the novel as well as new trends in philosophy and aesthetics ushered in a new era reflective of a search for greater consciousness and sensibility

a revolutionary mode of thought and life that profoundly affected the autobiographical genre This study examines a number of autobiographies which herald or reflect these new trends and developments how these and the autobiographer s changing objectives decisively enriched and modified the genre and how they gradually stir the genre toward an inevitable identity crisis *Saturday Review of Literature* ,1930 **The Publishers Weekly** ,1913 **The Library Catalogs of the Hoover**

Demons of the Modern World Malcolm McGrath,2010-10-05 probably the first thorough review of modern demonology superb Recommended Library Journal a terrifically contextualized debunking that is sure to generate debate among the faithful Publishers Weekly a fascinating book on the psychology of modern Western culture Science Spirit MagazineThis fascinating discussion of modern demonology focuses on our ability to differentiate the physical world with its mechanical laws from the inherently less predictable psychological realm of thoughts and beliefs McGrath points out that this ability was a hard won historical development and today must be learned in childhood through education Because of this historical background and our rich fantasy life in childhood each of us unconsciously suspects or fears that supernatural forces may break through the borders of our everyday commonsense order at any time Indeed at times of personal stress or societal crisis the modern boundaries between fantasy and reality begin to slip and then a magical world of demons and other phantasms can come flooding back into our disenchanted reality Through this innovative thesis McGrath goes a long way toward explaining both our fascination with fantasy entertainment such as horror stories and films and bizarre crazes such as witch hunts Satanism scares and even claims of alien abduction Despite our demystified culture the lure of childhood s magic kingdom with its monstrous shadow realm remains strong Malcolm McGrath Toronto Ontario Canada is a doctoral candidate in political philosophy at Oxford University *Saturday Review of Literature* ,1946 **Tolstoy and the Religious Culture of His Time** Inessa Medzhibovskaya,2009-07-15 The first book length study on the subject in any language Tolstoy and the Religious Culture of His Time treats Tolstoy s experience as a massive philosophical and religious project rather than a crisis laden tragedy Inessa Medzhibovskaya explains the evolution of Tolstoy s religious outlook based on his ongoing dialogue with the tradition of conversion in Europe and Russia as well as on the demands of his own heart mind and spirit The author contextualizes Tolstoy s conversion comparing his pattern of religious conversion with that of other notable religious converts Saint Paul Saint Augustine Luther Pascal Rousseau as well with that of Tolstoy s countrymen Pushkin Gogol Chaadaev Stankevich Belinsky Herzen and Dostoevsky Stressing the importance of the religious culture of his time for Tolstoy this study investigates the nineteenth century debates that inspired and repelled Tolstoy as he weighed arguments for or against faith in his dialogues with the culture of his time covering widely differing fields and disciplines of experimental knowledge The author considers German Romantic philosophy the natural sciences pragmatist religious solutions theories of social progress and evolution and the historical school of Christianity Medzhibovskaya stresses the fact

that influential intellectual currents were as important to Tolstoy as believers and nonbelievers were from and beyond his immediate environment The author argues that in this sense Tolstoy s conversion emerges as deeply intertextual and this surprising discovery should not diminish our trust in Tolstoy s sincerity during his religious evolution which occurred both spontaneously as well as deliberately The polyphony of discreet spiritual moments that Tolstoy created by fusing in his narratives of conversion religious and artistic realms is arguably his greatest contribution to spiritual autobiography **The New Republic** Herbert David Croly,1916 National Union Catalog ,1970 Includes entries for maps and atlases The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University -- Catalog of the Western Language Collections Hoover Institution on War, Revolution, and Peace,1977 *Biographical Books, 1876-1949* R.R.
