Conflict Violence And Nonviolence:

Conflict: Violence and Nonviolence Joan Valerie Bondurant, Conflict Margaret Fisher, 2017-08-02 Focusing on central issues in the study of conflict and conflict resolution this volume sets forth the views of eminent scholars on the forms uses and limitations of violence nonviolence and symbolic violence Joan V Bondurant as editor of this compilation defines the important issues places the often contradictory contributions into perspective and calls for a new conceptual framework within which workable techniques for the active conduct of conflict can be fashioned Each of the carefully chosen contributions deal with the most familiar modes of nonviolence pacifism and civil disobedience Several experts raise basic questions about pacifism point out new developments in today s peace movements and discuss vital topics such as the political implications of the pacifist position revolution as political change and the risks of engaging in civil disobedience For example H L Niebury contradicts popularly held opinion that violence settles nothing and argues that the threat of violence induces flexibility and stability in democratic institutions In *Violence and the Process of Terror* E V Walter gives a critical view of the limits of irrational violence and underscores the need to uncover the psychological mechanisms that account for the effectiveness of terror Exploring the differences between symbolic violence and creative conflict Ernest Jones details his unique investigation into revolutionaries styles and their respective degrees of destructiveness Bondurant concludes with an elaboration of the Gandhian technique of satyagraha to show that in most instances nonviolence is actually symbolic violence and that familiar nonviolent techniques cannot meet contemporary imperatives Ideally suited to a wide range of readers *Conflict Violence and Nonviolence* can be especially useful in studies of politics and political and social philosophy

Conflict Joan V. Bondurant, Margaret Welpley Fisher, 1971-06 **Violence, Nonviolence, and the Palestinian National Movement** Wendy Pearlman, 2011-10-24 Why do some national movements use violent protest and others nonviolent protest Wendy Pearlman shows that much of the answer lies inside movements themselves Nonviolent protest requires coordination and restraint which only a cohesive movement can provide When by contrast a movement is fragmented factional competition generates new incentives for violence and authority structures are too weak to constrain escalation Pearlman reveals these patterns across one hundred years in the Palestinian national movement with comparisons to South Africa and Northern Ireland To those who ask why there is no Palestinian Gandhi Pearlman demonstrates that nonviolence is not simply a matter of leadership Nor is violence attributable only to religion emotions or stark instrumentality Instead a movement s organizational structure mediates the strategies that it employs By taking readers on a journey from civil disobedience to suicide bombings this book offers fresh insight into the dynamics of conflict and mobilization

Violence and Nonviolence in International Relations Mahendra Kumar, 1975 **Encyclopedia of Violence, Peace, and Conflict** Lester R. Kurtz, Jennifer E. Turpin, 1999-08-10 The *Encyclopedia of Violence Peace and Conflict* a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in

the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world **The Sage**

Psychology assembles multiple perspectives to create a more comprehensive and nuanced understanding of the concepts and phenomena of nonviolence than is usually seen on the subject Through this diverse literature spanning psychology political science religious studies anthropology and sociology peace psychologist Dan Mayton gives readers the opportunity to view nonviolence as a body of principles a system of pragmatics and a strategy for social change This important volume Draws critical distinctions between nonviolence pacifism and related concepts Classifies nonviolence in terms of its scope intrapersonal interpersonal societal global and pacifism according to political and situational dimensions Applies standard psychological concepts such as beliefs motives dispositions and values to define nonviolent actions and behaviors Brings sociohistorical and cross cultural context to peace psychology Analyzes a century s worth of nonviolent social action from the pathbreaking work of Gandhi and King to the Courage to Refuse movement within the Israeli armed forces Reviews methodological and measurement issues in nonviolence research and suggests areas for future study Although more attention is traditionally devoted to violence and aggression within the social sciences Nonviolence and Peace Psychology reveals a robust knowledge base and a framework for peacebuilding work granting peace psychologists activists and mediators new possibilities for the transformative power of nonviolence

Conflict: violence and nonviolence, ed Joan Valérie Bondurant, Conflict Resolution Through Non-violence: Science and ethics K. D. Gangrade, Rameshwar Prasad Misra, 1990 *Conflict* Joan V. Bondurant, 1971

Three Decades of Peace Education around the World Robin J. Burns, Robert Aspeslagh, 2014-01-14 First Published in 1996 The current world order poses new challenges to the theory and practice of peace education Drawing on data gathered from around the world Burns and Aspeslagh focus on how peace is presented in formal and informal educational settings and what effects ideologies have in shaping that presentation The book views peace education in the context of education about other major social and political issues and in a variety of geopolitical settings exploring factors that affect the generation selection organization transmission and evaluation of knowledge for peace Following a review of major approaches to policy and praxis in peace education the editors draw on original research to offer interpretations based on pragmatic normative and conceptual approaches to the individual the state and the role of political literacy The use of a comparative educational framework that goes beyond curriculum studies and descriptive case studies presents a perspective that is innovative and timely The volume includes both bibliography and index

Strategic Nonviolent Conflict Peter Ackerman, Chris Kruegler, 1994 Nonviolent action well planned and implemented is shown in this lucid timely and compelling work to effect dramatic outcomes against opponents utilizing violence Ackerman and Kruegler recognize that not all nonviolent efforts meet with success and they are careful to stress that a nonviolent approach involves great risks as well as opportunities It is the effectiveness of the strategies employed which will determine whether those using nonviolent means can prevail against opponents who rely on violence in pursuit of objectives Twelve principles of strategic nonviolence are established in this book they serve as a conceptual foundation and enhance the prospects of

success in nonviolent campaigns of resistance The authors also develop six twentieth century examples of nonviolent action from the early Russian Revolution of 1904 1906 through the Solidarity movement in 1980 1981 Each campaign narrative constitutes a fascinating reading experience and illustrates common themes strategies and important aspects of behavior on the part of major participants in nonviolent encounters This is a singularly important book It offers more than a mere plea for nonviolence Ackerman and Kruegler provide hard lessons based on important and often painful historical efforts principles to govern the choice and implementation of strategies when nonviolence is the determined response and insightful analysis to guide assessment and policy Finally the authors consider the evolving international situation and relate current themes and policies to the potential inherent in astute and deliberate programs of nonviolence A work which will focus analysis impact decision making stimulate policy consideration and invigorate research this volume will well serve professionals and students in international relations and numerous related fields

Why Civil Resistance Works Erica Chenoweth, Maria J.

Stephan, 2011-08-09 For more than a century from 1900 to 2006 campaigns of nonviolent resistance were more than twice as effective as their violent counterparts in achieving their stated goals By attracting impressive support from citizens whose activism takes the form of protests boycotts civil disobedience and other forms of nonviolent noncooperation these efforts help separate regimes from their main sources of power and produce remarkable results even in Iran Burma the Philippines and the Palestinian Territories Combining statistical analysis with case studies of specific countries and territories Erica Chenoweth and Maria J Stephan detail the factors enabling such campaigns to succeed and sometimes causing them to fail They find that nonviolent resistance presents fewer obstacles to moral and physical involvement and commitment and that higher levels of participation contribute to enhanced resilience greater opportunities for tactical innovation and civic disruption and therefore less incentive for a regime to maintain its status quo and shifts in loyalty among opponents erstwhile supporters including members of the military establishment Chenoweth and Stephan conclude that successful nonviolent resistance ushers in more durable and internally peaceful democracies which are less likely to regress into civil war Presenting a rich evidentiary argument they originally and systematically compare violent and nonviolent outcomes in different historical periods and geographical contexts debunking the myth that violence occurs because of structural and environmental factors and that it is necessary to achieve certain political goals Instead the authors discover violent insurgency is rarely justifiable on strategic grounds

Perspectives on Nonviolence V.K. Kool, 2012-12-06 Paddock has

referred to societies as anti violent that inhibit the expression of aggression In his book Violence and Aggression KE Moyer has made a brief but interesting comparison of several violent and nonviolent cultures Whereas studies of violence have ranged from genetic cultural to Situation effects and have been pursued through empirical and nonempirical methods over the past several decades nonviolence did not become a favorite area of study among social scientists Although it is impossible to make a complete list of the various reasons for the lack of interest among social scientists on this subject it is generally

believed that a lack of understanding of the concept and a failure to either develop or apply adequate methods are to blame. Therefore we are not surprised that nonviolence has remained by and large a favorite topic among religious thinkers and leaders only. A good example of how people have difficulty understanding the concept of nonviolence came to me when I delivered a lecture to a group of political science students several years ago. I experienced similar problems when I spoke to the history and political science professors. Subsequent dialogues with faculty members in other disciplines convinced me that our perspectives on nonviolence were not commonly clear to all of us or, of course, most of us did agree on one thing: there is a distinct difference separating Eastern from Western views of nonviolence.

Encyclopedia of Violence, Peace, & Conflict: G-Po Lester R. Kurtz, 2008. Provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life. An essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change.

Non-violence and Social Change P. C. Sharma, 1977. Papers presented at the Seminar on Non violence and Social Change held at Allahabad during 30th January to 1st February 1971.

Psychology of Non-violence and Aggression V.K. Kool, 2008-02. Covering the theories and models of the psychology of non violence, this book explores the idea that this practice is not synonymous with the control of aggression but is an active behavior combining mainstream ideas with new contemporary perspectives.

Rethinking Violence Erica Chenoweth, Adria Lawrence, 2010. An original argument about the causes and consequences of political violence and the range of strategies employed.

Encyclopedia of Violence, Peace, & Conflict Lester R. Kurtz, 2008. The 2nd edition of *Encyclopedia of Violence, Peace and Conflict* provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life. Building on the highly regarded 1st edition (1999) and publishing at a time of seemingly inexorably increasing conflict and violent behaviour, the world over, the *Encyclopedia* is an essential reference for students and scholars working in the field of peace and conflict resolution studies and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change. Covering topics as diverse as Arms Control, Peace Movements, Child Abuse, Folklore, Terrorism, and Political Assassinations, the *Encyclopedia* comprehensively addresses an extensive information area in 225 multi-disciplinary, cross-referenced and authoritatively authored articles.
