Confrontation And Liberation In Southern Africa Ibrahim S. R. Msabaha, 2019-03-13 The 1984 Nkomati Accord a bilateral security agreement between South Africa and Mozambique to eliminate guerrilla threats on both sides of a common border was a milestone in regional confrontation and cooperation Yet the real challenge to the white South African regime is not external it is internal opposition to apartheid This volume written by leading African scholars begins by exploring the origins of racism and nationalism in Southern Africa The contributors discuss the spread of nationalist movements throughout the region arguing that South Africa has attempted to resist divert or undermine the domino effect by capitalizing on the Nkomati Accord The authors focus on the legal aspects of the Accord its impact on the foreign and defense policies of the Front Line States prospects for regional development and economic integration and potential outcomes of the national liberation struggles in Southern Africa

De Maio,2009-01-01 Confronting Ethnic Conflict critically assesses the role of external intervention in managing selected ethnic conflicts in Africa Given the pervasive threat of ethnic conflict and the growing incidence of internal wars spilling across borders understanding the impact of third party intervention on conflict prevention durable peaceful governance and amicable social relations becomes a critical exercise for any scholar of conflict management The purpose of this project is to determine whether intervention strategies undertaken by international regional and subregional actors can be devised or improved so as to maximize the likelihood of successful conflict management in the case of internal conflicts particularly ethnic conflicts As the literature and empirical evidence suggest third party intervention does not always prevent or end violence De Maio contends that external involvement is more likely to lead to effective conflict management if it works to alter the perceptions of the antagonists and ensures that the parties truly own the peace This book focuses on four cases in detail the Somali crisis from 1988 to 1992 the Burundi conflict from 1995 to 2003 the protracted conflict in Sudan from 1983 to 2005 and the 1994 KwaZulu Natal civil conflict in South Africa The cases were selected because their varying outcomes and different types of third party involvement suggest that insights can be gained into the conditions that determine successful third party intervention **Regional Conflict and U.S. Policy** Richard J. Gerhart,1972 The Ethical Economy of Conflict Prevention And Development Ralf Bredel,2007 Central to the current development debate is the importance of human welfare in the context of group conflict When considering ethnic racial and religious conflict this debate draws us toward a political economy of conflict Moreover notions of an economic paradigm have become prominent when international organizations debate conflict prevention In looking closer at the political economy of conflict this publication argues the need to assimilate into our thinking distinct social and ethical economies of conflict prevention A social economy of conflict prevention considers the interplay of economic with structural and cultural factors in conflict explaining a much neglected category of conflict i e hidden conflict The ethical economy of conflict prevention considers implicit ethical statements development practitioners use From these statements arise ethical paradoxes that influence the evolving economic paradigm in such way as to contradict one of its intrinsic desires namely to restrict conflict prevention strategies to effective technical interventions Eventually such narrow focus on technical interventions could identify this evolving paradigm as an economical paradigm In contrast a rethinking of the ethical economy of conflict prevention provides a useful tool for international

organizations when implementing a human rights based approach to development and long term conflict prevention
