## **Confronting Cruelty:**

*Confronting Cruelty* Lyle Munro, 2005-03-01 Why and how do people campaign on behalf of a species that is not their own Responses to this question provide important insights into the much misunderstood animal rights movement and the people in it who challenge the moral orthodoxy that underpins our attitudes towards nonhuman animals The norm of moderate concern for animals that animals matter albeit less than humans permits the abuse of animals in vivisection factory farming bloodsports and other contexts where animals suffer Social movement theory is used to show how animal rights activists are engaged in the social construction of cruelty as a social problem which they seek to prevent by their intellectual practical and emotion work in seminal campaigns against cruelty in the United States England and Australia [Confronting Cruelty](#)

Dorothy Scott, Shurlee Swain, 2013-04-01 The problem of child abuse seems to have escalated in recent years Were there any battered babies before the 1960s Is the sexual abuse of children a recent phenomenon The subject is often discussed in the media with little or no awareness that it has a long history *Confronting Cruelty* examines our changing understanding of what cruelty is the continuing neglect and abuse of children in our society and the struggle between philanthropists social workers and other professional groups for the right to identify and treat the children who are abused Through the rich case records of the Children's Protection Society Dorothy Scott and Shurlee Swain document a hundred years of child abuse and explore how the community has responded to this ever present social problem *Confronting Animal Abuse* Piers Beirne, 2009-07-16 *Confronting Animal Abuse* presents a powerful examination of the human animal relationship and the laws designed to protect it Piers Beirne a leading scholar in the growing field of green criminology explores the heated topic of animal abuse in agriculture science and sport as well as what is known if anything about the potential for animal assault to lead to inter human violence He convincingly shows how from its roots in the Irish plow fields of 1635 through today animal rights legislation has been primarily shaped by human interest and why we must reconsider the terms of human animal relationships Beirne argues that if violations of animals rights are to be taken seriously then scholars and activists should examine why some harms to animals are defined as criminal others as abusive but not criminal and still others as neither criminal nor abusive *Confronting Animal Abuse* points to the need for a more inclusive concept of harms to animals without which the meaning of animal abuse will be overwhelmingly confined to those harms that are regarded as socially unacceptable one on one cases of animal cruelty Certainly those cases demand attention But so too do those other and far more numerous institutionalized harms to animals where abuse is routine invisible ubiquitous and often defined as socially acceptable In this pioneering pro animal book Beirne identifies flaws in our traditional understanding of human animal relationships and proposes a compelling new approach [Confronting Cruelty](#) Shurlee Swain, Victorian Historical Journal, 2000 Covers the history of child welfare and protection in the 1890s 1920s and the difficulties of the children at the time **New Perspectives on Human-Animal Interactions** Sarah Knight, Harold Herzog, Rick H. Hoyle, 2009-09-01

Animals are important in human psychological and cultural life and our relationships with other species are psychological and morally complicated This special issue presents a series of original research articles concerning attitudes towards animals the ethics of their treatment the effects of companion animals on human health and psychological well being and the role that culture plays in our interactions with other species The articles illustrate the scope of the new field of human animal relationships the variety of research approaches and the implications of research findings for social policy

*The Fear of Child Sexuality* Steven Angelides, 2019-08-28 Continued public outcries over such issues as young models in sexually suggestive ads and intimate relationships between teachers and students speak to one of the most controversial fears of our time the entanglement of children and sexuality In this book Steven Angelides confronts that fear exploring how emotional vocabularies of anxiety shame and even contempt not only dominate discussions of youth sexuality but also allow adults to avoid acknowledging the sexual agency of young people Introducing case studies and trends from Australia the United Kingdom and North America he challenges assumptions on a variety of topics including sex education age of consent laws and sexting Angelides contends that an unwillingness to recognize children s sexual agency results not in the protection of young people but in their marginalization
