## **Conrad And The Millennium:**

*Conrad at the Millennium* Gail Fincham, Attie De Lange, Wiesław Krajka, 2001 This two volume collection is international and interdisciplinary in scope drawing on a large range of theoretical perspectives ranging from archival scholarship to cultural geography and film studies There are four sections Modernism and Modernity Postmodernism Intertextuality Postmodernism Gaze Vision and Voice and Postcolonialism

*Under Conrad's Eyes* Michael John DiSanto, 2009-04-01 Joseph Conrad's novels are recognized as great works of fiction but they should also be counted as great works of criticism A voracious reader throughout his life Conrad wrote novels that question and transform the ideas he encountered in non fiction novels and scientific and philosophic works *Under Conrad's Eyes* looks at Conrad's revaluations of some of his important nineteenth century predecessors Carlyle Darwin Dickens George Eliot Dostoevsky and Nietzsche Detailed readings of works from *Heart of Darkness* to *Victory* explore Conrad's language and style focusing on questions regarding the will to know and the avoidance of knowledge the potential harmfulness of sympathy and the competing instincts for self preservation and self destruction Comparative analyses show how Conrad transforms aspects of *Bleak House* into *The Secret Agent* and *Middlemarch* into *Nostromo* Especially compelling are explorations of Conrad's ambivalence towards Carlyle's faith in work and hero worship as rejuvenators of English culture and his views on Nietzsche's assault on Christianity This important new study of a novelist of profound contemporary relevance demonstrates how Conrad exemplifies the artist as critic while challenging both the categories we impose on texts and the boundaries we erect between literary periods

**Joseph Conrad's Critical Reception** John G. Peters, 2013-04-29 This book provides a comprehensive up to date history of the commentary written about the life and works of Joseph Conrad

**Conrad's Trojan Horses** Tom Henthorne, 2008 Tom Henthorne counters that Conrad's work can be best understood in relation to that of such early twentieth century writers as S K Ghosh and Solomon Plaatje postcolonialists who developed innovative ways of cloaking their anti imperialism when working with British publishers In *Almayer's Folly* *An Outcast of the Islands* and his first short stories Conrad attacks imperialism overtly Yet as he began to work with more conservative publishers to acquire a larger imperial audience he developed a Trojan Horse strategy deliberately obfuscating his radical politics through his use of multiple narrators irony free indirect discourse and other devices that are now associated with modernism Sensitive to the breadth of his prospective audience Henthorne offers an engaging and accessible analysis of Conrad's canon He also considers critical responses to Conrad and the influence Conrad has had upon modernist and postcolonial writers

**ELH.** ,2004 A journal of English literary history 1934 1955 **Joseph Conrad Today** ,2001 **Joseph Conrad** Wiesław Krajka,2009 Contains essays from the Fourth International Joseph Conrad Conference entitled Conrad s Polish Ukrainian Footprints organized by the Centre for Conrad Studies of the English Dept of Maria Curie Skodowska University and held at Lublin and Kazimierz Dolny June 19 23 2006 **English Literature in Transition, 1880-1920** ,2004

**Beyond the Roots** Wiesław Krajka,2005 This Volume Includes a collection of nineteen papers covering Conrads writing career beginning with Almayer s Folly 1889 and concluding with The Rescue 1920 Written by scholars from eight different countries and three continents the collection discusses a broad range of issues in the Conrad canon including ethics politics and imperialism While many of the papers discuss Heart of Darkness the collection also consists of several comparative studies linking Conrad with other English authors including Milton Blake and Lawrence The Language and Literature Reader Ronald Carter,Peter Stockwell,2008 The Language and Literature Reader is the first collection in over a decade to address the study of the linguistic foundations and components of literature A Memoir of My Life Tadeusz Bobrowski,2008 Many will recognize the name of Tadeusz Bobrowski Joseph Conrad s uncle a Polish landowner living in the Ukraine A member of one of Tsar Alexander II s regional committees charged with abolishing serfdom Bobrowski angered many of his fellow landowners by his commitment to land reform yet he also clashed with Poles who supported the January

Rising against Russia After Conrad's parents were killed for their anti-tsarist views Bobrowski became the young author's guardian and encouraged him to go to sea Throughout his life he remained Conrad's constant correspondent and vital link to his homeland and Bobrowski's dire opinion of Polish society shaped the novelist's gloomy view of human politics This volume is the first extensive English translation of Bobrowski's memoir which offers a full portrait of the reformer's thoughts on an optimal plan for Poland under Russia's rule His views contrasted sharply with the more common Romantic conception of Polish patriotism a form that encouraged armed uprisings against the Tsar's armies Bobrowski urged independence through a plan of economic social and cultural improvement an effort that came to be called organic work Bobrowski was called a tsarist collaborator and a coward but his memoir reveals his practical humanitarianism as well as a full portrait of Poland's political reality in the years of Conrad's childhood and youth

**Literary Landscapes** Attie De Lange, 2008-07-10 This book explores the varied ways in which modernist and postcolonial innovations in fiction are motivated by crises and revolutions in the human perception and appropriation of space Space for the writers concerned has its political historical cultural and gender dimensions as well as its geographical identity

**Cinema Expanded** Jonathan Walley, 2020-07-01 Expanded cinema avant garde moving image works that claim new territory for the cinematic beyond the bounds of familiar filmmaking practices and the traditional theatrical exhibition space First emerging in the 1960s amidst seismic shifts in the arts multi screen films live cinematic performance light art kinetic art video and computer generated imagery all placed under expanded cinema's umbrella re emerged at the dawn of the 2000s opening a vast new horizon of possibility for the moving image and perhaps even heralding the end of cinema as we know it Cinema Expanded Avant Garde Film in the Age of Intermedia offers a bold new account of its subject breaking from previous studies and from larger trends in film and art scholarship Author Jonathan Walley argues that expanded cinema's apparent departure from the traditions and forms of cinema as we know it actually radically asserts cinema's nature and artistic autonomy Walley also resituates expanded cinema within the context of avant garde film history linking it to a mode of filmmaking that has historically investigated and challenged the nature and limits of cinematic form As an outgrowth of this tradition expanded cinema offered a means for filmmakers within the avant garde regardless of their differing styles formal concerns and politics to stake out cinema's unique aesthetic terrain its ontology its independence its identity In addition to reconsidering the better known expanded cinema works of the 1960s and 70s by artists like Andy Warhol Robert Whitman and Nam June Paik Cinema Expanded also provides the first scholarly accounts of scores of lesser known works across more than 50 years Making new arguments about avant garde cinema in general and its complex meditations on the nature of cinema it urgently addresses current and crucial debates about the fate of the moving image amidst a digital age of near constant technological change

Conrad II, 990-1039 Herwig Wolfram, 2010-11-01 In this biography of the German

emperor Conrad II 990 1039 internationally renowned medievalist Herwig Wolfram paints a fascinating portrait of a consummate politician set against the background of a Europe entering a new millennium Conrad was the founder of the Salian Dynasty under whose almost century long dominion Germany became the most powerful state in Western Europe He was also the first emperor of the high Middle Ages to rule the three kingdoms of Germany Italy and Burgundy Conrad s reign marked the triumph of the concept of kingdom and the zenith of what has been termed imperial grandeur He broadened the internal bases of imperial power and brought the full weight of his office to bear upon popes clerics and abbots in the pursuit of his ecclesiastical policies His astounding ability to achieve his political goals was practically unparalleled among the emperors of the High Middle Ages Wolfram sees Conrad as a politician in almost the modern sense of the word capable of exploiting the political social and economic structures of his day in order to exert his authority and marginalize his opponents The result is an intimate portrait filled with fresh insights about Conrad and his consort Gisela who as Wolfram demonstrates played an influential advisory role with her husband First published in 2000 this work demonstrates Wolfram s masterly command of the sources and the storyteller s craft making Conrad II a compelling history of an emperor and his magnificent epoch **Partial Answers** ,2005
