Different Loving William Brame,Gloria Brame,Jon Jacobs,1996-01-13 A detailed eye opening account of the real sexual underground in America a thorough and serious study Playboy From Different Loving In order to understand unusual sexualities such as dominance and submission one first has to consider the question What is normal If the unique function of

sex is reproductive and the only reason men and women should engage in sex is for the purpose of creating a new life then only heterosexual intercourse is normal By this standard many common acts even contraception must be considered aberrant Reproductive relevance was the Victorian standard of normalcy and even today many of the laws in the United States still abide by that model But people have always pursued sex for both reproduction and for pleasure and well being We start from the premise that sex for pleasure is a normal human drive and is acceptable when it brings pleasure to both partners From this perspective D S is simply a different kind of loving We hope to add to the greater body of knowledge about what people really do behind closed doors with the people they most love and trust Perhaps Different Loving will help open the door for further research into the mystery beauty and complexity of human life and its diverse expressions Praise for Different Loving The definitive guide to the sexual styles of those who walk on the wild side Kirkus Reviews As a window on largely unexplored territory Different Loving is a breakthrough in the dialogue on human sexuality and a significant work of popular sociology South Bend Tribune A comprehensive primer on loving with leather and romance by riding crop Michael Musto New York Daily News

Penthouse ,1965 **An Empirical Study of Adult Males** Harold A. Hoff, 2015-10-30 WARNING Some personal experiences of survey respondents received as feedback is anonymously included and is graphic and explicitly sexual in nature The science behind normative parental spanking is obfuscated by a long list of claims in attempts to denigrate it However in the last decade a comprehensive body of evidence based research and longitudinal studies has emerged to scientifically debunk much of these opinions One opinion states that where adults exhibit an interest in consensual spanking with other adults this comes from the derailment of sexual development caused by childhood disciplinary spanking The science very convincingly shows that adult spanking interest is not associated with childhood experience In fact it is strongly negatively correlated The component of never spanked males with such interest is materially higher than national averages in every category Rather non straight males exhibit adult spanking interest 25 times greater than the national averages of males This clearly indicates that adult spanking is a mechanism by which non straight males express their sexuality with other males An in depth per capita comparison of adult males in various EU countries shows no measureable difference whether the country is a spanking allowed or spanking ban country Further there is no discernible trend showing that adult spanking has waned as a function of how long it has been since parental spanking was banned Spanking bans have had no effect on adult spanking interest which again disproves the
