Insurgent Terrorism Gerald Cromer, 2017-11-30 Terrorists engage in propaganda and rhetoric even though they prefer the power of deed over word They use a wide variety of mechanisms of moral disengagement to convince themselves of the rightness of their actions a necessary prerequisite for taking up arms The articles collected together in this excellent volume focus on the rhetoric and propaganda used by insurgent terrorists to justify their resort to violence The volume includes a thoughtful introduction which summarizes the main findings of the literature drawing attention to the many different kinds of terrorist propaganda and the underlying similarity between them [The Philosophical Correspondence of David Armstrong and David Lewis](#) , 2025-07-31

This volume contains the complete correspondence of two of the leading analytic philosophers of the late twentieth century David Armstrong and David Lewis Comprising some 345 letters including letters to and from third parties this correspondence is at once a deep philosophical resource shedding new light on the philosophical development of two of the great late twentieth century philosophers and a record of the development of a philosophical friendship The letters are valuable not only for the light they shed on the background to many of Armstrong s and Lewis major publications but also for what they show us about the practice of philosophy The correspondence is a window into both the philosophical content of two leading thinkers minds and an exemplar of how philosophy of the highest level can be done
