*Destination Delinquency?* A. J. Kloppers, 2004-05-01 Anyone who has ever faced difficult decisions or challenging personal events in their lives will be able to relate to this story Life will send you challenges no matter who you are and often it is more about your response and attitude to the problem than the problem itself that determines the outcome This is an inspirational true story about one person s unusual journey through adversity including an abusive childhood a genetically inherited illness cystic fibrosis and a near fatal blood disorder and offers a personal insight into how these hardships were dealt with and eventually overcome It is a story of hope No matter what your circumstances are you have the power to triumph and no longer see yourself as a victim It is up to you

The statement of our findings has gradually assumed the scope of a text or reference book the first on the subject We hope for our science the growth that other sciences have experienced there is great necessity for further research but extensions and modifications are to be embodied only as their truth is assured It would take long to specify the parts of our subject with which people of various affairs should be familiar Judges other court officers including lawyers and institutional authorities should have a particularly well rounded knowledge of the whole field Without the most thoughtful observation a great deal is hidden from view as may be easily appreciated by consideration of our cases and causal types Psychologists physicians religious leaders school people and not least of all parents should be in possession of many of our fundamental facts All who have to deal with offenders need the utmost possible understandings of human beings
