Destination Spirituality Joy M. Mills, 2002 Each of us has a unique special gift that is meant to be shared with the world wherever we are on our own individual spiritual journeys As we learn grow and our own inner peace evolves and thrives we develop greater understanding of the world around us and for each other The love we give in this world is the same love that will return to us We will develop a universal understanding for we are all from the same Source And we find that as physical beings with souls we are all connected to one another through that Source for everyone has a soul and each soul is connected to all the others within our realm of existence This book is about developing ourselves and our intuitions about developing our own inner peace by releasing the pain and any negative feelings surrounding the difficult circumstances in our lives It is about developing our mind body spirit connections both within ourselves outside ourselves and with others It is about developing a knowledge appreciation and understanding of the metaphysical aspect of our existence All of this is presented through a series of lessons divided into both text and practical exercises Many of these lessons are based on my own life s experiences many of which I had to learn the hard way Hopefully they will find you an easier path to your own inner peace

Migration as a Collective Project Dereje Feyissa,Fana Gebresenbet,2026-04-30 This book seeks to broaden the conversation in migration studies by incorporating a collective perspective as illustrated by the case study of Hadiya migration from Southern Ethiopia to South Africa Rather than presenting individualism and communalism as opposing forces the authors conceptualize them as points on a continuum At the starting end communal ties are crucial particularly in the early stages of the Hadiya migration but over time as migrants accumulate wealth and encounter increasing competition in South Africa s informal economy individualism begins to take precedence gradually unravelling the social fabric that initially supported collective success This temporal perspective offers a more nuanced understanding of migration revealing how it transitions from a collective endeavour to an increasingly individualistic one as circumstances evolve A convincing and compelling new volume which highlights the transformation of the migration process from a predominantly collectivist

endeavour to one characterized by increased individualism and the resulting need for a temporal perspective to avoid the pitfalls of a binary framework it will appeal to scholars and students of migration studies development studies sociology and African studies
