Simmons,2014 The Doctrine of the Trinity is an exercise in wonder It is drawn from the wonder of our own existence and the diverse experiences of the divine encountered by the early Christian community From the earliest days of Christianity theologians of the church have drawn upon the most sophisticated language and understandings of their time in an attempt to clarify and express that faith In this

volume Ernest Simmons asks what the current scientific understanding of the natural world might contribute to our reflection upon the relationship of God and the world in a Trinitarian fashion [Pneumatology at the Beginning of the Third Millennium](#) Kevin Wagner, Peter John McGregor, M. Isabell Naumann, 2023-12-01 The Holy Spirit who worked on the first Christian Pentecost continues to work in the church and the world today This being so the field of pneumatology the theology of the Holy Spirit should pique the interest of both the average Christian and the academic theologian perhaps more than it has in recent times This collection of chapters brings pneumatology into conversation with a wide variety of disciplines including scripture patristic and medieval theology and history The result is a scholarly monograph that enriches both pneumatology and the fields with which each contributor engages Furthermore with its attention on the work of the Spirit in the sacraments and the life of the church Pneumatology at the Beginning of the Third Millennium will help pastors and catechists in their ministries to understand more deeply the riches of the theology of the Third Person of the Trinity
