**Transforming Development Practice and Cultural Sustainability, Tourism and Development**

Nancy Duxbury, 2021-04-11 *Cultural Sustainability Tourism and Development* considers how tourism provides a lens to examine issues of cultural sustainability and change. It discusses how cultural and natural assets, artistic interventions, place identity, policy strategies, and community well-being are intertwined in re-articulations of place and local dynamics that occur in tourist locations. With a primary focus on culture in sustainable development, the book clarifies connections between culture as a core dimension of local sustainability and cultural dimensions of sustainable tourism. It highlights the roles and place of cultural expression, artistic activity, and heritage resources in local or regional sustainable development contexts. Chapters critically examine the dimensions of tourism, invoked dynamics of change, and the cultural impacts of tourism-related activities. The book concludes with proposals for new culture-informed and creativity-based approaches, mediations, and relations to encourage a better balance between visitors and residents, quality of life, and the broader sustainability of the area. Interdisciplinary and international in scope, contributions reflect on communities and rural areas located in Brazil, Canada, Croatia, India, Italy, Japan, the Netherlands, Poland, Portugal, and the United States. This book will be of great interest to students and scholars of cultural development and policy, heritage studies, cultural tourism, and sustainable tourism, cultural geography, and regional development. *Africa's Development Dynamics 2019: Achieving Productive Transformation*, African Union Commission, OECD, 2019-11-05. *Africa's Development Dynamics* What are the major economic and social trends in Africa? What is Africa's role in globalisation? This annual report presents an Africa open to the world and towards the future, uses the lessons learned in the five African regions: Central, East, North, Southern, and West Africa, to develop recommendations and share good practices. The report identifies innovative policies and offers practical policy recommendations adapted to the specificities of African economies. Drawing on the most recent available statistics, this analysis of development dynamics aims to help African leaders reach the targets of the African Union's Agenda 2063 at all levels: continental, regional, national, and local. Every year, this report will focus on one strategic theme. This 2019 edition explores policies for productive transformation. It proposes three main policy focus areas: transforming firms, providing business services to clusters of firms, developing regional production networks, and improving exporting firms' ability to thrive in fast-changing markets. This volume feeds into a policy debate between African Union's nations, citizens, entrepreneurs, and researchers. It aims to be part of a new co-operation between countries and regions focused on mutual learning and the preservation of common goods. This report is the result of a partnership between the African Union Commission and the OECD Development Centre. **Publishers' Trade List Annual, 1980**, Bobbs-Merrill Educational Co, 1980.
